

January 7, 2020

Dear Valued Supplier:

Northrop Grumman announced realigned operating sectors, effective Jan. 1, 2020. The four operating sectors are Aeronautics Systems, Defense Systems, Mission Systems and Space Systems.

Amongst these changes, Aerospace Systems became Aeronautics Systems. The following businesses comprise the new Aeronautics sector:

- Autonomous Systems
- Military Aircraft Systems
- Strike
- Aerospace Systems Advanced Programs

The former Aerospace Systems' Space Systems division including the Azusa, Calif., site and the space-related strategic business units joined the new Space Systems sector. In addition, the former Innovation Systems' Aerospace Structures business unit joined our new Aeronautics Systems sector.

As Aeronautics Systems, our legal entities, Northrop Grumman Systems Corporation (NGSC) and Northrop Grumman International Trading (NGIT) remain.

Our Suppliers are an integral part of our business and essential to on-time delivery of quality products and services. Thank you for your dedication and commitment to meet and exceed the current and future needs of our customers.

Sincerely,

Kevin Mitchell
Sector Vice President, Global Supply Chain
Northrop Grumman Aeronautics Systems
