NORTHROP
GRUMMAN

September 6, 2022

TO: Northrop Grumman Suppliers

FROM: Northrop Grumman Systems Corporation

SUBJECT: Cyber Security Questions added to RFQs

To improve our efficiency working together, Northrop Grumman has updated our Request for Quotation (RFQ) form to include cyber security questions. **This update will begin September 6, 2022.**

Previously, Buyers/SCAs have asked you to confirm or populate your Cyber Security Status via the T032 form. Our system will now prepopulate the RFQ form with this information on your behalf. For each RFQ, we will ask that you confirm the information is still applicable.

- If you check "YES" on the RFQ, the prepopulated answers will remain.
- If you check "NO" on the RFQ, the fields will become editable, and you will be able to update your information for submittal to the NG Buyer/SCA.

If Northrop Grumman does not have a prior record of your company's cyber security compliance status, the section will be blank and must be completed as part of the RFQ response or by attaching an equivalent attestation of compliance.

We look forward to working with your organization as we transition to this new, enhanced process. Please contact your Buyer/SCA if you have any questions or comments.

Thank you for your continued support.
