

Memo

To: Bethpage Residents
From: Edward Hannon, Project Director
Date: Monday, May 1, 2023 at 4 p.m.
Subject: RW-21 Progress Report

Northrop Grumman is providing this progress report to you on our activities in support of the RW-21 groundwater treatment system project and other associated environmental activities.

We are continuing to commission the leak detection system along the piping route and our preparation equipment has been delivered to the RW-22 well located on the greenway. We will begin RW-22 well commissioning on Thursday, May 4. This effort will enable us to test the movement of potable water through that pipe and at other wells which will be connected to an interim treatment system located at the treatment building. Delivery of materials and the start of commissioning work at the RW-21 well will take place from May 8 to May 11 followed by the RW-20 well on May 12.

RW-21 Treatment System Tests

We continue to test internal operating systems in our building (sprinklers, fire alarm, heating, ventilation, air conditioning) to meet the requirements of the Nassau County Fire Marshall and Town of Hempstead. Once that inspection is complete and we are approved to operate, we will reach another major milestone and receive our Certificate of Occupancy.

Temporary Use of Hickey Blvd and Access Road

As a reminder, Northrop Grumman personnel and our contractors may temporarily need to enter our work site through the Hickey Blvd entrance. We ask residents living at Apollo Senior Center and Sunny Lane Senior Center and their visitors to be aware of this additional traffic in the area through mid-June should we need to use this access road.

Routine groundwater sampling program

Our contractors continue to conduct routine groundwater sampling activities at a variety of Northrop Grumman and US Navy-owned well locations. If you have questions about any of our project work, please contact Dianne Baumert-Moyik at (516) 754-2645 or Dianne.baumert-moyik@ngc.com.

Our project information can be found by visiting www.northropgrumman.com/bethpage. Thank you.
