

Memo

To: Bethpage Residents
From: Edward Hannon, Project Director
Date: Tuesday, November 23, 2021; 4:30 p.m.
Subject: RW-21 Piping installation (November 24 and 26)
Sheridan closure
Current and upcoming work on Central Avenue
Community update meeting December 1 at 7 p.m.

Northrop Grumman is providing this progress report to you on the installation of piping to support the RW-21 groundwater treatment system project. Our contractors continue to conduct road work on town- and county-owned streets along the piping route.

As we work to complete the piping installation and restoration on Sheridan Avenue north to Central Avenue, Sheridan Avenue remains closed entirely (except to residents who live there). We want to thank everyone on Sheridan Avenue for moving your vehicles during work hours, and also thank the St. Martin of Tours Parish leadership for their support as we continue to stage our materials.

Our schedule through November 26 is as follows:

Wednesday, November 24: We will continue pipe installation on Sheridan, and backfilling and curbing/paving restoration on Central Avenue (at Seaman Avenue/N. Herman Ave crossing). Work will be completed by 4:30 p.m. Please remain careful when walking near our work zones. No work will be conducted on Thursday, November 25.

Friday, November 26: We will continue pipe installation and backfilling on Sheridan but no work will take place on Central Avenue (at Seaman Avenue/N. Herman Ave crossing). Work will be completed by 4:30 p.m. Please remain careful when walking near our work zones.

ORANGE LINE IS CURRENT WORK ZONE; Black line is completed

There will continue to be intermittent lane closures as we move across the work zone on Central Avenue (at the N. Herman and Seaman Ave crossing).

Central Avenue/Hickey Blvd. work begins next Monday: We expect to begin several days of utility locate test pitting work on Central Avenue (at Hickey Blvd.) on Monday. Over the next four to five weeks, we will excavate the trench, install shoring and pipeline, followed by paving restoration.

During this time, there will be intermittent lane closures on Central Avenue as we move across the work zone. Drivers who use Central Avenue regularly are advised to use alternative routes to avoid traffic delays at the Hickey Blvd/Sheridan Avenue crossings while this work is in progress. Timing to complete this work is weather dependent.

Updates to Bethpage School District Walkers/Bus Routes: We continue to routinely update Stacey Popkin from the Bethpage School District Transportation office on our project.

Pavement restoration on Emma Street: In the next few weeks, we will repair areas of Emma Street where the paving restoration has now settled.

Safe driving and walking through work zones: Please continue to walk or drive safely around our work zones.

Work vehicles moving in and out of our staging area: You may also observe our equipment vehicles entering and exiting our staging areas off Broadway south of Arthur Avenue and the east side of the Town Municipal Lot B-2 (Seaman Avenue). We continue to use a portion of the St. Martin of Tours church parking lot (just left of Seaman Avenue) while we install the piping under Central Avenue.

Next Wednesday, December 1, 2021 7 p.m. Community Update: We have scheduled another community update via Zoom. The meeting information is below.
