March 18 Community Meeting Invitation: Park Soil Remedy

February 28, 2020

Dear Fellow Resident,

On Wednesday, March 18, 2020, Northrop Grumman will host a community update meeting beginning at 6 p.m. at the Bethpage Community Center, 103 Grumman Rd. West, Bethpage, N.Y. 11714. We have also invited NYSDEC Project Manager Jason Pelton and New York State Department of Health Project Manager James Sullivan to attend this update.

Our Phase 1 work, which began in March 2019 and covered the construction of our treatment system in the ball field at the Bethpage Community Park, is now complete. We are ready to commence Phase 2 and we will describe the next phase of our New York State Department of Environmental Conservation-approved project plan to remediate specific areas of soil in the ball field. Northrop Grumman continues, as it has done for several decades, to work in close coordination with the U.S. Navy and federal, state and local environmental and health authorities to address legacy environmental conditions in the area. You can learn more about our project at www.northropgrumman.com/bethpage.

Please contact me anytime at (516) 754-2645, (321) 361-2363 or via email at dianne.baumert-moyik@ngc.com, if you have any questions. Thank you.

Dianne Baumert-Moyik
